

Description

PROPrint 101Y is a printable vinyl with removable adhesive. Unlike many competing products, it is made out of premium polymeric PVC, which gives it better flexibility and stability. It is optimized for short-term floor graphics such as dance floors and concerts. The grey adhesive provides good covering power. Available in white with a gloss finish.

Recommended Applications

For flat short-term indoor applications on smooth, sealed surfaces such as smooth concrete, ceramic, and floor vinyl.

Technical Data

Material	Calendered polymeric PVC
Thickness (without liner and adhesive)	5.9 mil
Colour	White
Dimensional Stability	Max 0.5mm (48 hours at 70°C, steel plate, MD) FTM14
Seawater Resistance	No variation (100 hours at 23°C, aluminum plate) DIN 50 021
Adhesive	Grey, removable, pressure sensitive, solvent-based
Adhesive Strength	FTM1 180° peel, steel 24 hr: 1.6 – 2.5 lb/in
Release Liner	86# double PE-coated silicon paper
Print Compatibility	Solvent, eco-solvent, latex, UV-curable
Outdoor Durability (based on proper application procedures)	Not recommended for outdoor use Indoor floor use: up to 24hrs of foot traffic
Minimum Application Temperature	50°F (10°C)
Temperature Resistance	-5°F to 148°F (-20°C to 65°C)
Shelf Life	1 year from ship date
Available Sizes	54" x 55yd

Surfaces to which the material will be applied must be thoroughly cleaned from dust, grease or any contamination which could affect the adhesion of the material. The compatibility of selected lacquers and paints should be tested by the user, prior to application of the material. All data are based upon research which the Company believes to be reliable but does not constitute warranty. The purchaser should carefully consider the suitability and performance of the product for each intended use, and the purchaser shall assume all risks regarding such use.
